

Survey report on the dissemination of Evidence Assessment

As part of the implementation of the Effective Health Care Research Consortium project, an online survey on the dissemination of bilingual Evidence Assessments of Cochrane Systemic Reviews was conducted by the Center for the Development of Best Practices in Health. A questionnaire of 8 questions was sent by e-mail to the stakeholders receiving the Evidence Assessments on a regular basis and two reminders have been sent.

Of the 458 people who received the questionnaire, 119 (26%) provided feedbacks.

The information below was collected from the first 100 respondents.

1. Evidence Assessment helped improve your practices or knowledge in the exercise of my profession / work

	Number of respondents	Percentage (%)
In total disagreement	1	1
